PROFESSIONAL SUMMARY

I am a motivated second-year Software Development student with hands-on experience building full-stack web applications using Django and ASP.NET. Comfortable working across the entire development lifecycle, from planning and coding to testing and debugging. Brings strong organization and attention to detail from managing inventory, stock workflows, and customer service in a small-scale café environment. Quick to learn new technologies, highly adaptable, and eager to contribute strong problem-solving skills and a collaborative mindset to a dynamic development team.

EDUCATION

CAMPUTER STEP ACADEMY CAMBODIA

- 2024 – present

BELTIE Internation School

- Graduated high school, 2021

AUSTRALIA Centre for Education

- GEP 12

PROJECTS

Librarian Book Track

- This initiative is named the Librarian Book Track, developed collaboratively using HTML, CSS, and JavaScript. Its primary emphasis is on JavaScript.

ASP.Net Web API

- Develop a web application utilizing ASP.NET, database, and a diagram. This project is also my final exam assignment, which I completed independently.
